ODA VERKLARING

Met het voltooien van deze inschrijving machtig ik Oblivion bv, gevestigd Mr. van Rhemenslaan 3, 7316 AJ te Apeldoorn, tot het opvragen van meetdata, aansluiting informatie en andere energiegerelateerde informatie van de genoemde EAN aansluiting(en) bij het desbetreffende meetbedrijf / netbeheerder. De meetdata wordt door de netbeheerder dagelijks uitgelezen en beschikbaar gesteld aan Oblivion bv. Het betreft de dag- en intervalwaarden.

Voor elektriciteit zijn dit kwartierwaarden en voor gas zijn dit uurwaarden.
Ondergetekende verzoekt betrokken partijen al hun medewerking te verlenen.
Tevens verklaar ik toekomstige verhuizingen aan Oblivion by te melden. Deze machtiging is onvoorwaardelijk en opzegbaar met inachtneming van 2 maanden opzegtermijn.

NEW BUSINESS & RESEARCH & DEVELOPME

Version 1: signing by QR

NEW BUSINESS & RESEARCH & DEVELOPME

Example case: Give consent for advertisements

alliander

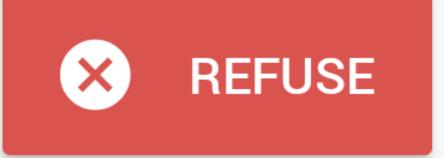

Sign with attributes

Hereby I explicitly grant consent to company X to use the email address below for mailing me a weekly list of advertisements about topics that X thinks are interesting for me. This consent is valid for one year, until 31 / 5 / 2019, and holds also for all partner companies of X.

with the following attributes:

email:

Signing by QR is from 'server' to user, in one session

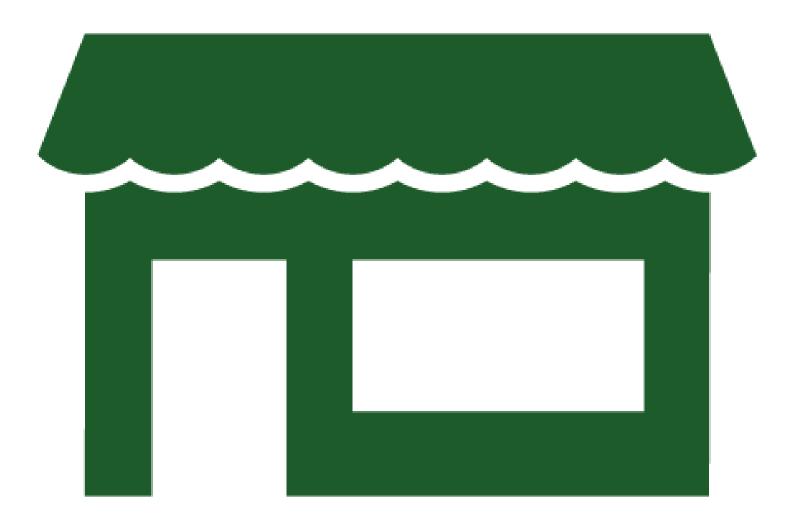

Message Name?, City?

Signature requester

Version 2: sign by e-mail

NEW BUSINESS & RESEARCH & DEVELOPME

Sign by mail is 'user to user', asynchronous

User

Message Name?, City?

Sign by QR vs sign by mail

Sign by QR

Sign by mail

Example case: Request for a donation

signer@example.com

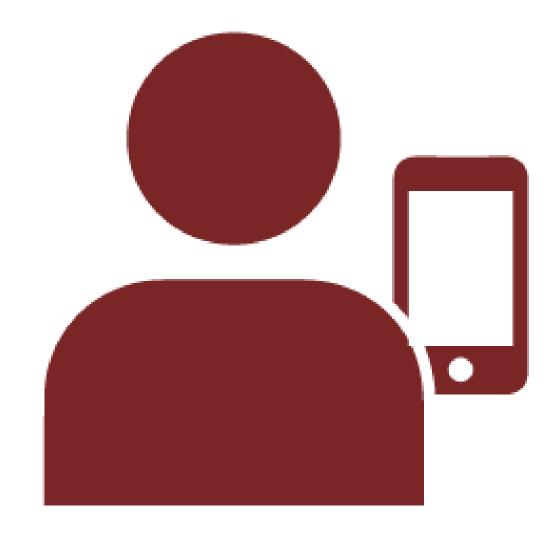

I Donate 100BTC to pbdf Name?, City?

> I Donate 100 BTC to PBDF Koen Utrecht

requestor@example.com

Conclusions

- IRMA signatures are cool!
- We can use IRMA signatures in a variety of use cases
 - Also for 'anonymous' signatures!
 - Easy to verify later on
- IRMA signatures can be used both in a session as well as 'offline'
